

OPS Job Posting Checklist

Use this checklist when creating job postings for Other Personal Services (OPS) openings. The following Description Type categories are available in the Postings page of the job opening. To effectively advertise the position, the categories in the Required section must be included in the job opening. Any categories in the Optional section that more fully describe the role should be included to attract a robust applicant pool.

Categories marked with an asterisk (*) indicate a standard statement must be chosen from the Template drop-down menu across from the Description Type. For the remaining categories, the department must enter the information.
